**Subject: Invitation to give a seminar at CCNY**

Dear Sabrina,

Happy New Year! On behalf of the High Energy Physics group, we would like to invite you to give a seminar at the City College of the City University of New York in the Spring. Our seminars take place on Fridays at 2:30 pm and will run from February 5 to May14. This term the seminars will continue to be remote, via Zoom. We hope we can come back to normalcy and welcome you in NY in the near future. Please let me know if you're interested in giving a talk here and, if so, your preferred dates. We'd be delighted if you could give one of our seminars.

Best regards,

Sebastian
